

# Angels.

You can use lots of materials to make different types of angels.

See what you can find around the house and collect things from the garden or when you are out on a walk.

Try different ways of joining materials.

Angels mean different things to different people. Maybe your angel could be for someone from the NHS, a key worker or someone in your house who helps you.

You can use the pictures for ideas but I'm sure you'll come up with some even better ones.

Have fun and send any pictures of angels you make.

Have fun

Carolyn

# A is for Angel Craft
