

# Nail string art

Here are some ideas of string art pictures.

You will need some old wood, bits of coloured wool, ribbon or material strips, nails and a hammer.

Sketch your design onto the wood and mark out where the nails are going to go.

Tip. Don't have them too close to the edge

Work with an adult until you have got the hang of getting the nails in straight!

It can take quite a long time but don't give up ☐☐☐

Share photos of your finished work. We'd love to see them ☐☐
