

Rounding Money to the Nearest Pound

The Anytown Toy Shop is having a sale and everything is being sold at discounted prices. You have £25 birthday money to spend, but how can you make sure you have enough to get what you want?

Try the following to see if you have enough money:

- use the poster to find the prices of the items on your shopping list
- round each item's price to the nearest £1 in the 'Rounded price' column and add them together
- add the actual prices together
- do you have enough money?

Discuss: How accurate are rounded prices?
